PROSPECTUS OF THE "NATIONAL MON-UMENT,"

A weekly journal to be published in Washington under the sanction of the Washington National Monument Society. JAMES C. PICKETT, EDITOR AND PUBLISHER.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be a literary, agricultural, and miscellaneous paper. It will contain selections of the literature of the day—the best that can be found in American and English publications: interesting scientificarticles, embracing mechanics; foreign and domestic news; a symposis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of aiding in the erection of the noble column now rising on the bauks of the Potomac, in homor of the Father of his Country, and which every one who venerates the name of Washington would rejoice to see completed. After deducting out of the subscription the expenses of the journal proposed to be published, the remaining funds will be faithfully applied, and without reserve, to the purpose indicated. The aid, herefore, of all who are willing to contribute to so patriotic an object, and one so entirely national, is carnessly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's gratitude.

The Board of Managers recommend Mr. Pickett, formerly Fourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument journal, as one well qualified to perform the duties of editor, and to conduct the paper faithfully, and satisfactorily to the subscribers. They assure their fellow citizens that this enterprise is not a speculation got up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive nothing more, and he asks nothing more, than a very moderate compensation for his services. Not one dollar, therefore, of the direct subscription to the erection of the Monument will be, in

ist of fifty thousand paying subscribers, at two dollars ach, will yield an annual net profit of from fifty to sixty housand dollars.

The postmasters, and secretaries of all organized bodies aroughout the Union, are respectfully requested to act agents in obtaining subscriptions, thus aiding the great bject of our exertions.

As all editors and publishers, on account of the object or which the Monument newspaper will be established, must wish it to success by publishing this prospectus.

All moneys will be remitted, and all letters and moneys all moneys doressed prepaid, to the general agent of the Monument ociety, Hon. Elisha Whittlessey, Washington.

Opticase.—Millard Fillmore, explicio President; Arch. Lenderson, First Vice President; Walter Lenox, (Mayor f Washington). Second Vice President; Theo. Carberry, hird Vice President; J. B. H. Smith, Treasurer; Geo. Watterston, Secretary.

Board of Mangaers.—Winfield Scott, N. Towson, Thos. Junree, W. A. Bradley, P. R. Fendall, Walter Jones, Homas Elagden, Peter Force, W. W. Seaton. M. F. Maury, Hartley Crawford, Berlj. Ogle Tayloe, Elisha Whittlesser, Thomas Elagden, Peter and type being of the best quality—al in quarto form, containing sixteen large pages, that may be more easily preserved. The price will be two ollars per annum, payable on the receipt of the second amber. The nature of the enterprise not admitting of my credit, none can be given.

Societies and clubs will be furnished with the Monument and the following terms: 3 copies for \$5; 5 copies, \$5; 10 ppies, \$15; &c.

Those who are disposed to patronise the Monument and sequested to forward their manes to the General Acade.

\$40; &c. se who are disposed to patronise the MONUMENT are ted to forward their names to the Government requested to forward their names to the General Agent, without delay. The first number will be published early n May, and the second on the second day of August, and reskly thereafter; time being allowed for the Copectus o be circulated, and for the agents to make returns. As II subscribers will be contributors to the Monument toolf, their names will be published in the paper.

The Astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubs.

The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the similar grant under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests of operations of the other department. The furniture of the study-rooms and dormitories has been chosen with peculiar reference to comfort and tonvenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for pricate study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to receite in any of the College classes. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Faculty, may enjoy the use of the College Library without additional charge. Admission also may be had to the Lectures, and sinch other privileges of the College as can be profitably enjoyed by academical students.

The charge for Boarding, Washing, Prel, Light, &c., with tuition in the English, Latin, and Greek is seventy deliars for the Summer Session, and seventy-five for the Winter Session

A General Index to the first 47 Vols. of the English Common Law Reports.

By Hon. General Sharswood and George W. Biddle. Beers. 1 vol. 8vo.—\$5 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found ofgreat value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

Camering, T. & J. W. Johnson:

Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not

recent Exchequer Reports. In my judgment they are no excelled by any cotemporaneous Reports, in learning ability, or general utility and interest. The cases decide are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deen of more importance or value for a Professional Library.

JOSEPH STORY.

CAMBRIDGE, January 25, 1846.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of repristing them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially hoomylete without them.

I am, gentlemen, very respectfully yours,
SIMON GREENLEAF.

Fourth Series—Forty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers. The cheapest Law Periodical in the United States. It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Nisi Prius, Archbold's Landlord and Tenant, Crabb on Real Proporty, Smith on Contracts. The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

PURNISHING MAIL LOCKS AND KEYS.

Post OFFICE DEPARTMENT, March 14, 1851.

I T being desirable to substitute locks and keys of some of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional continue continue the contract in force for a continue the contract in force for an additional continue continue the contract in force for a continue the contract in force for a continue the contract in force for a contract in the contract i on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an addi-tional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, vis: durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adopted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patente will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Post office Department. In decling, upon

amount of valuable statistical and other information, highly useful not only to the merchant, but to the statesman, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized, Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant, Freeman Hunt, esq.

Extract of a letter from Hon. Millard Fullmore.

"I have read it (Merchanta Magazine) with a good ideal of attention, and have not hesitation is asying that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite indispensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Letter from the Hon. Thomas H. Benton.

WASHINGTON CITY, April 20; 1840.

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchanes' Magazine, and have found it in reality to be a wegazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact a merchant's magazine in the large acceptation of the term—merchants who go between mations; whose large clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between mations; whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

Letter from Hon. Win. H. Secard.

My Dear Sir: Have the goodness to place my name or your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in his extending country, but the fiscal and commercia questions involved in the administration of the government.

I am, with great respect, your humble servant,

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffale, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffale to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Mesars. Hotiges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Erie, the Niagran flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorams of steamboats and coaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldues and purity, by any in the United States. The house, recently errected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommidate seventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic exercises.

of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydrogathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably efficacious mode of curing the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great truths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and decirableness of its arrangements. The institution is now open for the reception of patients, and in full operation.
